

Due to our continued expansion we are looking to appoint experienced

Software Developers & Designers

The persons selected for these positions should have 3-5 years of experience as a developer in the financial software industry, be strongly outcome-focused and innovative problem solvers. Successful candidates will strengthen our development team by designing and implementing parts of components for the Delta Suite.

Who we are looking for:

- Ideally 3-5 years practical experience with
 - o ISO C++ and CORBA (IONA ORBIX Enterprise/(XA, 2PC, DCOM2CORBA, EJB2CORBA, .NET2CORBA)) on Solaris (SPARC), HP-UX, Windows and Linux
 - o UML, Code Generators, OOA, OOD, OOP, OO-Patterns, State-Space Diagrams
 - o Solaris, HP-UX, Linux and Windows XP/2003, System and Network API
 - o Oracle 9/10, Sybase (ASE) 12, IBM-DB2, SQL Server 2005
 - o MFC and/or Motif (C++)
 - o IDEs like SUN Forte/SunONE and Visual Studio 2003/2005 with integrated Rational tools
 - o Multithreading programming and real-time modeling/programming
 - o Component-oriented design and programming (knowledge in category theory would be an asset)
- Know-how of the following items would be advantageous:
 - o Numerical mathematics, mainly Partial Differential Equations (FEM, SpecM)
 - o 3d-Computer Graphics, (OpenGL/C++), NURBS
 - o Quantitative Finance & Risk Management
 - o Matlab, Mathematica, Maple, SPSS
 - o Reuters (Kondors+, KVar+, Kobra, RFA C++, RMDS/Triarch)
 - o Rational Tools (ClearCase, ClearQuest, Rose, Rose RT, PurifyPlus, ... on UNIX and Windows)
 - o Rational Unified Process (RUP)
 - o NumeriX C++ API
- Good command of English (working language).

The Role:

Primary focus and responsibilities include:

- Develop design models (UML, static and dynamic), and implement in round trip the design models in CORBA/C++ and UML with OO GoF-patterns.
- Analyzing, designing and implementing use cases/analysis models from Finance
- Database design in UML and scheme generations
- Developing (complex) user interfaces (smart clients) on MFC and Motif Technology

Delta Hedge is a rapidly growing and privately-owned company delivering high-quality solutions to our clients in trading, risk management and financial engineering.
